## **BLUEPRINT**

The paradisiacal layout for Yemen is but one example, which we will provide publically. The layouts will slightly vary depending upon the nations' capabilities and resources. We begin with an introduction which I had written over seven years ago along with the layout itself. (Intro was written 2013)

## **What System Can Place Yemen Upon Its Feet?**

This is just a peek at the blueprint for the tribal region of Yemen. This is not for the west. Their blueprint is based upon the same principle but is summarily different in its outlay.

What is taking place in Yemen now is really working against the peoples, through the hand of the people, themselves, and through the conductors of war.

Some governments work for the people and others work against the people. And some people work against the paradisiacal system in order to gain power and temporary wealth unto themselves through the betraying the peoples of the nations and keeping them far away from the paradisiacal system or order.

Many years ago the Yemeni President Saleh informed the United States and British troops to stay out of the surrounding waters and off the land. One of these reasons for such request was partly due to much bootlegging of liquor into Saudi Arabia which had enacted a law against such drugs because the action of those who partook usually resulted in very bad behavior which in turn resulted in crimes. The Americans and British refused and the **foreign-based government** of the United States of America informed President Saleh that they would bomb the clay city if he did not cooperate.

The clay city is ancient and many have considered it the eighth great wonder of the world.

Though many may be unaware of these past events, you, the reader will understand all the more when you finish this writ.

We have kept all blueprints to a simple common denominator in your fashion of linguistics and of articulating our intention, and of such do we trust the each one who reads these blueprints that not one soul will ever read with eyes and a mind less capable of understanding the basic English language than that of any other.

### **Unto Paradise do we Tread**

**Sisters, Brethren, it is not necessary to use the capitalist monetary system to accomplish such worthy goals as bringing Yemen back into the fold of all paradisiacal accomplishments. Here is an economic example for Yemen:**

Find your best resources, Yemen, such as offering back to Saudi Arabia for their \*financial assistance in the demining of the Governate of Aden, **a conservatory for their Zoo animals**, upon Yemeni land; and Iraqi animals, among others, are in need of placement as well and fed.

For instance Southern Yemen has 27% meadows and 7% forest. You have only 1% land arable=fit for agricultural cultivation. Northern Yemen on the other hand is fixed with 14% arable=fit for agricultural cultivation, 36% meadows with 8% forestland. So if we put it all together we have a ratio of something more to work with here than families any longer feeling they need to sell their daughters into rich Saudi households for wives or servants.

That is a day of the past and we would now like to see Yemen grow way beyond its own cash flow, because inside the Federation of Unified Nations operating on the Original Interstellar People and Government Friendly System of Economics, and not breaking any Universal Principle by going contrary to the universally acclaimed economics as practiced on the paradisiacal worlds, there can be no budget, no lack of resources, no crimes which are mainly attributed to the use of the capitalistic monetary system, and no more poor and hopeless feeling Yemeni.

Now let us add up all of Yemenis' finest resources. We have 63% meadows, 15% forestland, and 15% arable land=fit for agriculture and now with removal of the land mines in the Aden Governate the active land mass is gradually rising. Now we have a land mass of 93% usable land throughout Southern as well as Northern Yemen. In addition to that Yemen has coastal regional waters.

Because Oman borders Yemen on one side, and because they are not self sufficient in their own food production it would not be wise to cultivate a relationship based upon offering any of their Zoo animals or animals needing a special home where they could not find otherwise, through the backtrading of food items.

Instead, Yemenis can offer the Omanis a home for their Zoo animals and in exchange ask for a certain allotted amount of marble. You can make your own cement for

foundations, and begin to build your own Paradise for those who wish their houses with marble structure or some on the flooring. **This, of course, is just an example.**

You would need to build your homes in the culture of your People, with a solid foundation in order that all Yemenis will be safe from major earthquakes in Aden and in other regions. Never think you are not prone to earthquakes in your regions simply because you have had none before.

*(Updated 2.23.2016: With all the active bombing and shelling by the Americans and British against Iraq and Afghanistan, the bombings were setting off shock waves throughout the major tectonic plates)*

Whatever Yemen needs in prospects of irrigation for instance Yemen is able to ask for assistance in acquiring irrigation pipes with saltine inhibitors attached in return for fish and an offer to yet another Ummah (*nation*) within a UMMAH=NATION, to offer sanctuary of a Paradisiacal nature for exotic Zoo animal creatures and the tired and abused and sad ones. So this is how it works and it has worked this way for eons upon other worlds even less fortunate than this one.

Why do we bring up an issue such as Yemenis building some of their structures of Marble? Just to let Yemenis know that no matter what the People of Yemen decide they wish to build their own personal as well as collective Paradise out of as far as material is concerned, **nothing** under the Original Interstellar People and government-friendly system of economics as first brought to this world we have starmapped as Angorius by the Federation of Unified and Free Planetary Worlds (*if you all work together and follow the Blueprint we had given to each one of you earlier*), **is out of their reach.**

**In the example of agriculture dealing between nations**, and Peoples, and Governments of Nations, before we progressed on in explaining how the Ummahs work within each UMMAH and those **UMMAHS** or **NATIONS** work within even a larger **CENTRAL UMMAH of which will replace the present day United Nations**, and so on, **then you will have accomplished a feat so great that Yemen will be turned into a Paradise and even the land will be turned into the greenest meadow lands for the greatest and most beautiful World Conservatory for Middle Eastern Zoo creatures, that the entire non-capitalist world will flock to Yemen just to see them all and be taught at the same time how to care for their own animals at home.**

Animals likened unto People do not want to be the subject of examination when they need to urinate or release dung. Watch intently someday soon, a smaller animal such as a dog or cat, and you will notice that these are sentient beings who have particular feelings just the same as you and I do about many of these things if not all.

**Yemen may become the world conservatory zoo. Yemen may become also the world's largest animal hospital. Remember this conservatory is for the abandoned, abused and neglected animals, fowl and endangered amphibians and endangered species of fish, as well as some exotic creatures.**

**Yemen's mountainous regions, the flatlands, sea and lake** areas provide home to all types of these sort of animals, fish and fowl and allow **for hiking and boating for people who live within the global community of nations of the Federation of Unified and Free Planetary World Nations.**

**People will come worldwide to study and be taught about all creatures.**

**A school will be erected to take students who wish to become animal doctors and conservationists.**

**Tourism will put Yemen on its feet** as well as people visiting the **ancient clay city** which is one of the world's greatest wonders.

Yemen will be a **port of boating and glass bottomed** boats will be afloat to show the people who sail on them the **conservation sea-life.**

**Contributions to the conservatory will be another way Yemen will rise to the top.** People contributing supplies and talents to build the conservatory schools, to set paths, and so on. These people contributing their talents will still put in their hours to their home **Material Majlis.**

Saudi Arabia has given extensively to the demining of the entire Governate of Aden, in Yemen, and President of Yemen, Saleh, back in those days of demining, enterprised the entire operation with the utmost of success. **But there are those who did not wish to see Yemen under another type of success and that success is the paradisiacal solution for all of Yemeni people.**

Certain ones caused the utmost trouble and turmoil in Libya and Iraq, Afghanistan, and other interested nations such **as Syria whose water**, should it come under the control of others, would leave the Arab world in the north in great peril. **For without water all life ends. It becomes a perfect occupation.**

These are ones, overturning governments, some of whose leaders had noble goals for their people, and were blamed unfairly for targeting their own people when indeed it was others on rooftops and on the ground doing such deeds. These certain ones only wished at that hour for the destruction unto death of all peoples of the Arab world and beyond in order that a return to a paradisiacal living will never see fruition in the present peoples lifetime, nor in the lifetime of their children in their present incarnation.

In this way the capitalist banking system would continue, they hoped, to monopolize the lives of the global community and secure the national wealth and cheap labour toward themselves.

**Selfishness always breeds contempt for the people - all people.**

**But a new day arises and each one who became unaware of the existence of the Original Talent and Purchase Order System of the Federation of Unified and Free Planetary Home Worlds and Nations are turning their gaze toward greater enlightenment, and as they do so, we welcome them home.**

*Notation: In ref: \*\*"financial assistance." At the hour this was written Saudi Arabia was still engaging within the monetary system of economics through its own banks and it was to this we had referred. The Yemeni Government was advised by King Fahd at that hour that should it bring too much further hardship upon the peoples of Yemen in paying back the debt, then that debt would simply be written off so not to further concern themselves. It was "understood" that "a happy nation is a secure nation on all fronts." – Uthrania Seila Sentana-Ries, a representative of the Federation of Unified and Free Planetary Worlds*
